CONSULTING

STRATEGIC PLANNING

Strategic Plan Development

What exactly is it that you are trying to achieve in your business or organisation? Making sure you have a clear, achievable and specific strategy is imperative for success. Services include creating, reviewing or updating your strategic plan, which can include:

- Workshops
- Stakeholder Engagement
- Market research

Annual Action Plan

Once your strategic plan is in place, the most important thing to do next is to ensure it is achieved. By setting annual action plans with specific tasks and tactics connected to goals and objectives of your strategic plan, increases your ability to succeed.

Scenario Planning and Forecasting

Undecided about a particular business direction? We can create scenario planning and forecasting prior to making a decision to help you make the best choice to ensure success, including:

- Growth outlook and modelling
- Financial viability and sustainability modelling
- Business division profit & loss forecasts
- Market and economic research
- Create review and update detailed business plans

Goal & KPI Setting

Keep your team accountable by setting achievable but stretching goals and KPIs. Linked to your strategic plan, the development and regular reporting on the progress of goals and KPIs will keep you on track to succeed.

Business Operating Model Review

Not sure your current business model will ensure future success? We can complete a comprehensive and detailed review of your current business model vs alternatives. This review could include:

- Research of current market trends in your industry
- Financial viability of alternative business operating models
- Stakeholder engagement
- A business or board report with recommendations on business operating model review

Testimonials

Andrea Honeyman

Business Manager, Gippsland Shed Group

We have had the pleasure of working with Kylie from Sadhana Consulting to assist us with developing a business plan for our company. The whole process was so easy and Kylie was both professional and also friendly. I would highly recommend her services to anyone.

Sadhana: A discipline which leads to perfection

Sadhana means a practice or discipline which leads to perfection. Well, we all know perfection is difficult to achieve, but that should not stop us from striving to.

Sadhana Consulting is based on a foundation of striving to achieve the best we possibly can through constant evaluation, inquiry and redirection based on knowledge, new realisations and improved technology. This way we learn and grow, providing greater experience, a sense of fulfilment and achievement. Without continuously striving to improve, we grow stagnant, the things that worked for us in the past, no longer will.

We genuinely care about achieving success and providing the most effective solutions to our customers. See more on our website.
